3. Click on “**Spanish verbs**” in the left-hand column.

A screenshot of the 'Spanish Verb Conjugation Activities' page on the Conjuguemos website. The page has a grey background. On the left, there is a vertical navigation menu with colored tabs for different languages: French (red), German (blue), Italian (green), Latin (purple), Portuguese (orange), and Spanish (yellow). The Spanish tab is currently selected. The main content area is titled 'Spanish Verb Conjugation Activities' and contains a list of 12 exercises. Each exercise has a title and a 'Verb Chart' link. A red arrow points from the text in step 3 to the 'Spanish' tab in the navigation menu. Another red arrow points from the text in step 4 to the 'PRETERIT TENSE: irregular verbs' exercise, and a third red arrow points to the 'Verb Chart' link for that exercise.

4. Click on the verb tense you want to practice. (To find out all possible verbs in the verb bank for each exercise, click on VERB CHART to the right, which is a printable file.) Notice that many tenses are further subdivided into regular, spell-changing, stem-changing and irregular forms, or you can choose "ALL VERBS" in that tense.

5. **Before starting**, you can customize your practice this way: (scroll to bottom of web page for the view seen to the right.)

Choose your verbs:

Pre-select verbs from the list if you want to limit your practice to certain verbs. If you do not choose any, you will be given any of the verbs at random from the verb list.

Choose your pronoun:

Focus on certain conjugations if you want to, or choose "all but vosotros" if you will not be tested on that and do not wish to practice it. You will get all conjugations, including "vosotros" if you leave the default setting as is.

Timing: You are now ready to begin. The default setting is timed for 5 minutes. When you scroll back up to the top, if you do not want to be timed, just click on the box to the right that says "Don't time me." Alternatively, you can be timed, but change the default 5-minute setting to something else.

The screenshot shows two selection menus. The first menu, titled "ALL VERBS", lists: andar, caber, dar, decir, estar, hacer, ir, poder, poner, querer. The second menu, titled "ALL PRONOUNS", lists: ALL but vosotros, yo, tú, él, ella, usted, nosotros, vosotros, ellas, ellos, ustedes. Red arrows point from the text in the left box to these two menus.

The screenshot shows the "PRETERIT TENSE: irregular verbs" section. Below the title, it says "Press Start to begin. You may check your answers by pressing Enter on the keyboard, or the Check button. You may change the verbs, pronouns, and tenses by scrolling down and selecting from the menus." At the bottom, there is a timing control: "Time me for 5 minutes!" with a text input field containing "5". To the right are a "START" button, a "STOP" button, and a checkbox labeled "Don't time me!" which is currently unchecked. Red arrows point from the text in the left box to the "5" input field and the "Don't time me!" checkbox.

Click the green START button to begin.

After keying in your answer, you can either click on CHECK or **just hit "Enter"** on your keyboard (this is faster!).

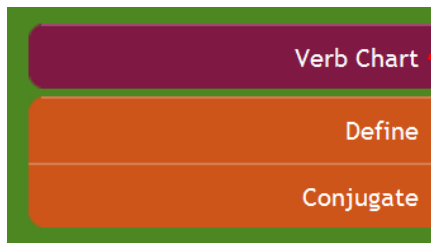

If your response is correct, you will be given the next prompt.

If your response is not correct, it will give you the correct answer which you must key in so that you can move on to the next prompt.

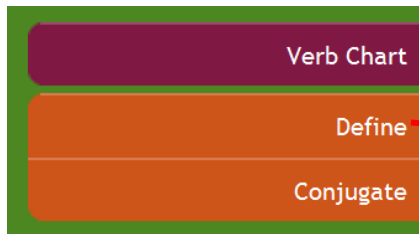

The screenshot shows the 'Conjugate' interface. At the top, there is a timer set to 00:00 and a green 'START' button. Below the timer, there are three input fields: 'PRONOUN' with 'yo', 'VERB' with 'hacer', and 'ANSWER' with 'hice'. A green frog character is on the left. At the bottom, there are buttons for 'Add accent' and 'Explain accents', and a green 'CHECK' button on the right. A red arrow points to the 'START' button, and another red arrow points to the 'CHECK' button.

The screenshot shows the 'Conjugate' interface. At the top, there is a timer set to 00:00 and a green 'START' button. Below the timer, there are three input fields: 'PRONOUN' with 'yo', 'VERB' with 'poder', and 'ANSWER' with 'pudo'. A green frog character is on the left. A red speech bubble with a hand pointing and the word 'Wrong!' is shown. A red arrow points from the speech bubble to the 'ANSWER' field. Another red arrow points from the speech bubble to the text 'The answer is: pude'. At the bottom, there are buttons for 'Add accent' and 'Explain accents'.

ACCENT MARKS ON VERBS:

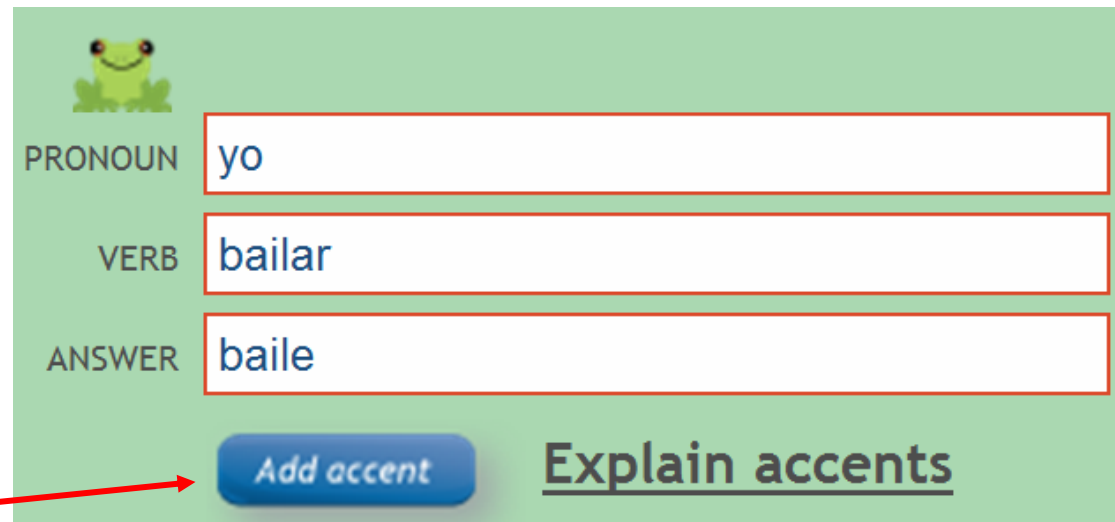

If a verb conjugation requires an accent mark, and you do not use it, it will say your answer is incorrect.

This screen capture is taken from Regular Verbs in the Preterit. The "yo" form of a regular verb in the preterit requires an accent mark on the final letter. In this case:

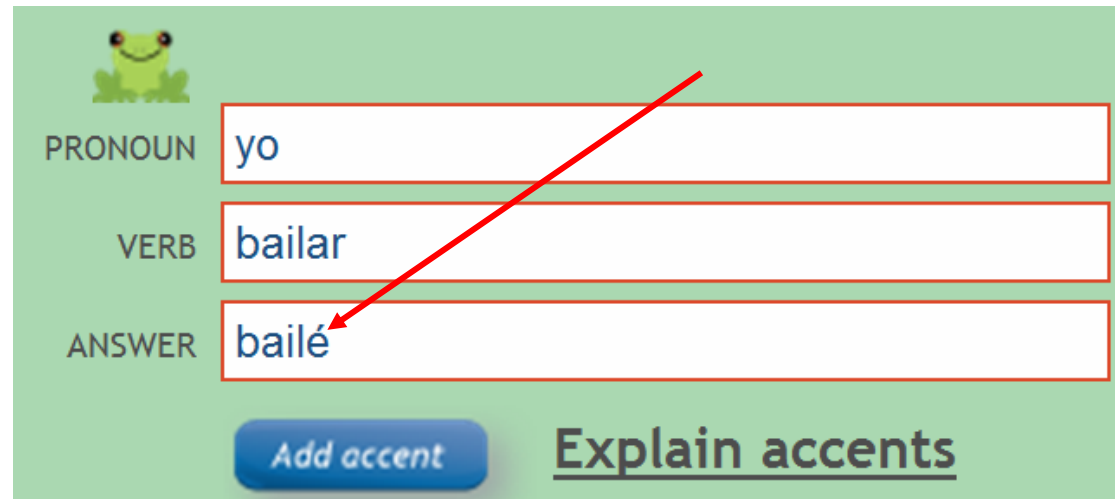

bailé

To type the accent mark, click on **ADD ACCENT** immediately **AFTER** typing the letter that requires an accent.

The accent mark will then appear on the letter you just typed.

A screenshot of a language learning interface. At the top left is a small green frog icon. Below it are three input fields: 'PRONOUN' with 'yo', 'VERB' with 'bailar', and 'ANSWER' with 'baile'. At the bottom left is a blue button labeled 'Add accent'. At the bottom right is a link labeled 'Explain accents'.

A second screenshot of the same language learning interface. The 'PRONOUN' field still has 'yo' and the 'VERB' field still has 'bailar'. The 'ANSWER' field now has 'bailé'. A red arrow points from the 'Add accent' button in the first screenshot to the 'é' in the 'ANSWER' field of this screenshot. At the bottom left is a blue button labeled 'Add accent'. At the bottom right is a link labeled 'Explain accents'.
